DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-10, drawn to a method of making and/or using a laminate, classified in class 264, subclass 82.

Group II, claim(s) 12-18, drawn to an assembly, classified in class 206, subclass 364.

Group III, claim(s) 19-21, drawn to a storage package with an instrument, classified in class 206, subclass 210.

Group IV, claim(s) 22, drawn to a process for making a storage package, which may contain an instrument, classified in class 53, subclass 426.

Group V, claim(s) 27-42, drawn to a method of making and/or using a container, classified in class 493, subclass unknown.

The inventions listed as Groups I-V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding patentable special technical features for the following reasons: Group I is drawn to a method of making and/or using a laminate; Group 2 is drawn to an assembly; Group 3 is drawn to a storage

package with an instrument inside; Group 4 is drawn to a process for forming a storage package, with an instrument inside, and how it may be treated; Group 5 is drawn to a method of making and/or using a container. It is clear, as was established in the prior prosecution, that the laminate per se is not patentable and therefore does not link these distinct inventions.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).
